NEXUS ENTERPRISE LTD

The Future of Work Starts Here.

Preparing Rwanda's youth for tomorrow's opportunities.

Our Mission

NEXUS ENTERPRISE LTD is a company that empowers Rwanda's young people to prepare for the future of work and to help shape it. Through research-driven skills training, mentorship, innovation labs and partnerships with local employers, we give youth hands-on, project-based experience, open pathways into careers beyond agriculture, and help them turn ideas into jobs.

The Problem

Graduate unemployment among young Rwandans is a pressing national concern, standing at 14.9% in 2022 (NISR Labour Force Survey, 2024). Despite sustained effort by the Government and the private sector, obstacles persist: uneven access to quality education, a mismatch between youth skills and labour market demand, and too few jobs outside agriculture. These constraints depress household incomes and weigh on the national economy.

Key Problems

Youth unemployment was 18% in 2024, against 12.3% for adults (NISR)

Agriculture still accounts for 39.6% of employment, leaving too few jobs elsewhere.

Female youth unemployment is 17.5%, vs. 12.2% for males.

Female youth unemploment sits at 17.5%

12.2% of rural households have internet access

The Solution

How will we bring this solution to life, and who will make it happen?

- **Establishment of Skills to Employment Centers:** Serving as hubs to help young graduates upskill and be ready.
- **Graduates use our designed employer-verified skills passport system** to record their upskilling status so companies can hire based on proven skills rather than school qualifications, and they can also start their own businesses and create jobs for others.
- **Practical Skills**: Equip youth with vocational, digital, soft, and entrepreneurship skills aligned with market needs.
- **Mentors & Networks**: Connect young people with experienced mentors, career guidance, and potential employers.
- **Real Experience**: Provide hands-on, employer-designed projects and internship opportunities to build workplace readiness.
- **Enterprise Creation**: Support young people in turning ideas into viable businesses that create jobs for themselves and others.

Target Market

- **Young Rwandan Graduates & Job Seekers**

  Youth aged 16–30, especially graduates and unemployed or underemployed young people seeking practical skills and career opportunities.

- **Training Centers & Educational Institutions**

  TVET schools, universities and training centers that can partner with us to deliver skills training, mentorship and innovation programmes.

- **Employers & Private Companies**

  Businesses seeking skilled talent, interns and future employees, while contributing real projects and workplace experience.

- **Mentors & Industry Professionals**

  Experienced professionals, entrepreneurs and industry experts who provide career guidance, mentorship and networking opportunities.

- **Government & Development Organizations**

  Public institutions, youth employment programmes, NGOs and development partners supporting skills development, inclusion and job creation.

- **Investors & Funding Partners**

  Impact investors, foundations, corporate sponsors and other funders interested in youth empowerment, employability and sustainable job creation.

Funding Allocation

Item	Grant	Partners	Total
Centre setup, equipment, internet	$2,500	$5,000	$7,500

Internships and project stipends	$1,500	$3,000	$4,500
Outreach: women and rural youth	$1,000	$1,000	$2,000
Graduate tracking and evaluation	$1,000	$1,000	$2,000
Total	**$10,000**	**$15,000**	**$25,000**

Why Invest in Us?

NEXUS ENTERPRISE LTD is an opportunity to invest in Rwanda's young people and the future of work. We combine practical skills, employer partnerships, and enterprise creation to turn talent into employment and sustainable businesses. With a scalable model, measurable impact, and a path toward financial sustainability, we aim to create lasting value for youth, employers, and the wider economy.

Catalytic Investment

$10,000 unlocks approximately $15,000 in partner funding and support, helping us stretch investment further and expand our impact.

Scalable Impact

We aim to grow from a tested pilot into a five-province network, reaching more young people through existing training facilities and partnerships.

Measurable Results

We track graduates' employment or business status one year after training, helping us measure outcomes and improve our programmes.

Sustainable Growth

Employer and training revenues will help reduce reliance on grants, while piloting in existing facilities keeps costs manageable and tests feasibility before expansion.

Traction & Growth

NEXUS's $25,000 funding plan will equip young people with practical, market-relevant skills through training, mentorship, digital tools, and internships. By partnering with employers and reaching Rwandan youth, we aim to bridge the gap between education and employment, support new businesses, and promote inclusive, sustainable growth in Rwanda.

300+

Youth skilled

Young people completing practical skills training.

150+

Job & internship matches

Opportunities facilitated through employer partnerships.

30+
